

The Copay Is the Same Either Way

You now have more cost saving options when filling your long-term medications. You and your covered dependents can get a three-month supply of a long-term medication at a CVS/pharmacy for the same copay as CVS Caremark Mail Service Pharmacy.

This new cost-saving option lets you choose which is more convenient for you — CVS Caremark Mail Service home delivery or picking up your long-term medication at your local CVS/pharmacy. The copay will be the same either way.

Turn over for more details.

Mail or Retail Service

CVS
CAREMARK

Whichever You Choose, You Can Count on Quality Pharmacy Service from CVS Caremark.

Mail or Retail Service

At CVS/pharmacy You May:

- Enjoy same-day prescription availability
- Pick up your long-term medication directly from the pharmacy at a time that is convenient for you
- Take the opportunity to consult face-to-face with a local CVS pharmacist

With Mail Service You May:

- Enjoy the convenience of mail service delivery to your home
- Receive your long-term medications in confidential, tamper-resistant and (if required) temperature-controlled packaging
- Consult with a CVS Caremark pharmacist on the telephone if you wish
